What is Turkish Bath and "KESE"?

For over 1000 years Turkish Bath is known and popular in the Orient.

"**KESE**" is a type of peeling for the whole body, which is done in the "**HAMAM**" (Turkish Bath).

After sweating in the Hamam for about ten minutes, The Masseur attendant rubbs your body with a special glove (made out of silk). In this way, all the death skin is removed and your skin becomes smooth and soft. After this, your body is foamed and washed, in order to cleanse it properly.

*Enjoy the relaxing and exotic atmosphere
with "KESE"*
